

User of S31 Identified

Stellan Swenson (#2654)

I recently found a letter with perfin S31 in the stamp. The user of this pattern is not identified in the Catalog of United States Perfins, although it is known used on stamps issued between 1926 and 1933. The following cover confirms use by

the Scandanavian-American Lines (27 Whitehall St.), New York [City, NY], a shipping line of the Danish Corporation DFDS (Det Forende Dampskibs Selskab), Copenhagen.
